**3,645** Station Airings Nationwide

TRT: 0:30 seconds

Hi, I'm Amy Yazbeck. In 2003, my husband John Ritter died from an undiagnosed thoracic aortic dissection. Thousands die yearly from this often hereditary medical emergency.

The John Ritter Foundation for Aortic Health is asking you to please find out if your family has a history of aortic aneurysm or dissection. Sharing this information with your doctor can lead to early identification and treatment which can save your life. For more information, go to [johnritterfoundation.org](http://johnritterfoundation.org).
